Specifications

Rated Output Power	5 W X 2
Power supply	AC Input: 100-240V~50/60Hz
DC Power	5V=1A
Battery	2500mAh
Operation Power Consumption	<1.0W
Standby Power Consumption	<0.8W
Dimensions	
-Main Unit(W X H X D)	248 X 85 X 60 mm
Weight	
-With Packing	1.45 kg
-Main Unit	0.8 kg

Pairing and connecting Bluetooth® devices

1. Set your Bluetooth device to discoverable so it can discover (detect) the speaker. Locate the Bluetooth device / pairing list in user interface of your device.
2. From the Bluetooth device list, select the device named "CvILux".
3. If your Bluetooth device prompts you for a passcode, enter digits 0000 (four zeros) and press OK.

IMPORTANT

1. To reduce the risk of fire or electrical shock, do not expose the product to rain or moisture.
2. Do not place the product on surfaces that are dripping or splashing, and do not place objects filled with liquids, such as vases, on or near the apparatus. As with any electronic products, use care not to spill liquids into any part of the system. Liquids can cause damage to the product.
3. Do not place any naked flame sources, such as lighted candles, on or near the apparatus.
4. Do not mend, disconnect or modify this device.
5. Do not use this product where the use of electronic devices is prohibited.

FCC Information and Copyright

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

15.19 Labelling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC RF warning statement: the device has been evaluated to meet general RF exposure requirement , The device can be used in portable exposure condition without restriction.
